

# Permafrost Coastal Systems Network (PerCS-Net) Retreat 14-17 February 2024 Chateau LeMoyne New Orleans, LA

#### PARTICIPANTS

Retreat 2024 / New Orleans, LA

NAME	AFFILIATION	EMAIL
Harsha Bagavathyraj	University of Texas El Paso	hbagavathyr@miners.utep.edu
Matthew Balazs	University of Alaska Fairbanks	mbalazs@alaska.edu
Noël Béatrice	Université du Québec à Rimouski	Beatrice.Noel@uqar.ca
Mette Bendixen	McGill University	mette.bendixen@mcgill.ca
Samual Binette	Université du Québec à Rimouski	Samuel.Binette@uqar.ca
Antoine Boisson	Université du Québec à Rimouski	Antoine_Boisson@uqar.ca
Roger Creel	Woods Hole Oceanographic Institution	roger.creel@whoi.edu
Jessica DePaolis	Virginia Tech	jessicad@vt.edu
Cansu Demir	University of Texas Austin	cdemir@utexas.edu
David Didier	Université du Québec à Rimouski	David_Didier@uqar.ca
Emily Eidam	Oregon State University	emily.eidam@oregonstate.edu
Casey Ferguson	University of Alaska Fairbanks	cfergu23@alaska.edu
Roberta Glenn	University of Alaska Fairbanks	rjglenn@alaska.edu
Julia Guimond	Woods Hole Oceanographic Institution	julia.guimond@whoi.edu
Anne Jensen	University of Alaska Fairbanks	ajensen@alaska.edu
Benjamin Jones	University of Alaska Fairbanks	bmjones3@alaska.edu
Rebecca Lee	Geological Survey of Canada	Rebecca.Lee@nrcan-rncan.gc.ca
Chris Maio	University of Alaska Fairbanks	cvmaio@alaska.edu
David Nielsen	Max Planck Institute for Meteorology	david.nielsen@mpimet.mpg.de
Sasha Peterson	University of Texas El Paso	speterson2@miners.utep.edu
Jana Peirce	University of Alaska Fairbanks	jlpeirce@alaska.edu
Madison Smith	Woods Hole Oceanographic Institution	madisonmsmith@whoi.edu
Emma Snodgrass	University of Alaska Fairbanks	esnodgrass@alaska.edu
Joy Snodgrass	University of Alaska Fairbanks	jmsnodgrass@alaska.edu
Alina Spera	University of Texas El Paso	aspera@miners.utep.edu
Craig Tweedie	University of Texas El Paso	ctweedie@utep.edu
Melissa Ward Jones	University of Alaska Fairbanks	mkwardjones@alaska.edu
Ziyi Wang	Penn State University	ziyiwang@psu.edu

# Permafrost Coastal Systems Network (PerCS-Net)

### Final Retreat - 2024

**Retreat Goal:** It's the 5<sup>th</sup> and final year of the 1<sup>st</sup> phase of PerCS-Net. We are excited to be bringing together a core group of PerCS-Net members to assess our progress towards the goals and objectives of the NSF-AccelNet program, reflect on our successes and challenges, and to develop tangible strategies towards sustaining our International Network of Networks in the future.

# Wednesday - 14 February

	Dinner on your own (per diem will be provided on travel expense reports)	
6:00 pm	Meet and Greet at The Black Penny	700 N Rampart St, New Orleans, LA 70116
		Quarter - Chateau LeMoyne is 4pm 301 Dauphine St, New Orleans, LA 70112
4 pm	Arrival Day for Most Attendees!	Check in time at the Holiday Inn French

# Thursday - 15 February

8 AM	Breakfast	
9:30 AM	Welcome and Housekeeping	
10:00 AM	PechaKucha: 15 Presentations	PechaKucha self-introductions: PechaKucha
11 AM	Coffee/snack break	10x20 presentation format is a slide show of 10
11:30 AM	PechaKucha: 13 Presentations	images, each auto-advancing after 20 seconds. Consider focusing on your background (who you are, your past research, your current research). For first time attendees tell us what you are looking forward to as part of the network, and for those returning network members, highlight aspects of how PerCS-Net has impacted your career.
12:30 PM	Lunch	

#### DRAFT AGENDA Retreat 2024 / New Orleans, LA

1:30 PM	<b>Group Movement/Engagement</b>	
	Activity	

#### 2:00 PM PerCS-Net Overview/Charge for the Retreat

It's been five years since PerCS-Net was established through the NSF-AccelNet program by integrating several preexisting national and international networks.

During this final network retreat for the initial phase of PerCS-Net, we will be reflecting on our progress, identifying areas of success and failures, the benefit of this international network, and discussing network sustainability and a vision for the future.

2:30 PM Coffee/snack break

#### 3-5 PM Roundtable Discussion/Breakout **Groups:** Supporting Early Career Researchers in International Network of Networks

A primary goal of the NSF AccelNet program is to prepare the next generation of U.S. researchers for multi-team international collaborations.

This roundtable discussion / breakout group session aims to provide space and time to discuss aspirations for engaging early career researchers, report on opportunities and progress, and to crowdsource ideas for addressing challenges of developing multiteam international collaborations.

The discussion will focus on 1) individual goals and motivations for involvement with international collaborative network building and how this supports professional development, 2) discussing capacity among ECRs around leading international collaborative projects both within and outside academia, 3) identifying key needs and gaps in building capacity and competency for international collaboration among ECRs.

#### Dinner on your own (per diem will be provided on travel expense reports)

## Friday - 16 February

#### 8 AM Breakfast

#### 9 AM Roundtable Discussion/Breakout **Groups: Network Evaluation Questionnaire**

The NSF AccelNet program is at its fiveyear mark and the PMs are planning for an external review to plan the future of the program. The PMs are particularly interested in learning how Network of Networks cooperate and exchange information to advance science. Given

#### PerCS-Net Questionnaire:

- 1. What PerCS-Net activities or products have been the most valuable to you?
- 2. How has your involvement in PerCS-Net helped advance or accelerate your career and research?
- 3. Has your involvement in PerCS-Net helped you develop your professional skills?
- 4. Has your involvement in PerCS-Net increased opportunities for international collaboration

#### DRAFT AGENDA Retreat 2024 / New Orleans, LA

this context, we will reflect on the past five years of PerCS-Net activities to highlight what has worked and/or not worked. Please, if you haven't filled out the online questionnaire for PerCS-Net, do so by 02 February so we can have time to collate the responses to help guide this roundtable discussion.

The online form is here:

https://forms.gle/18zJyNj3M9mNLKTv5

- or provided you with a more global research perspective?
- 5. How could we make a network like PerCS-Net more effective in increasing international collaboration and accelerating scientific discovery?
- 6. Are there other national or international networks we should engage with to advance research in coastal and offshore permafrost
- 7. Has your involvement in PerCS-Net opened educational or professional opportunities that you might not have had otherwise?
- 8. Considering what you've already shared, what do you think has been the biggest outcome or benefit of participating in PerCS-Net?

10:30 AM Coffee/snack break

11:00 AM Roundtable Discussion/Breakout Groups: Working with Indigenous & local communities and how to build that capacity into international networks of networks.

> The Alaska Coastal Cooperative at UAF is an interdisciplinary and cross-cultural research group that was created in 2022 to address emerging environmental and socioecological challenges to Arctic coastal communities. It is working to elevate local priorities to accelerate actionable coastal resiliency science and communication and increase technical capacity through education, training, and knowledge co-production. A recently funded NSF Collaboratory project, ACTION (Alaska Coastal Cooperative for Co-producing Transformative Ideas and Opportunities in the North) serves as its foundation.

We will discuss aspects of the newly funded NSF-NNA ACTION project and how to best integrate the efforts of the ACC into PerCS-Net to maximize the benefit to the International Network of Networks.

#### **Discussion Questions:**

**Question 1:** How can we more effectively communicate and work together to build synergy, leverage ongoing work, and avoid duplication of effort?

**Question 2:** How to create opportunities and build capacity for Indigenous communities to lead and participate in research; what are the effective strategies for building trust and requesting community input and feedback?

**Question 3:** What are the needs in rural coastal communities regarding technical training, capacity to participate, and education - What are the gaps that need to be filled to reach a resilient future?

12:30 PM Lunch

1:30 PM Group Movement/Engagement Activity

2:00 PM Roundtable Discussion/Breakout Groups: Long-term continuity of PerCS-Net

This discussion will focus on five themes:

Maintaining funding for International Networks of Networks

#### DRAFT AGENDA Retreat 2024 / New Orleans, LA

NSF funding for PerCS-Net is slated to end in the
fall of 2024. What is the long-term vision of our
International Network of Networks?

- Sustaining the future through Early Career
   Networks
- 3) Advisory Boards for maintaining the network continuity
- 4) Data standards and synthesis as means for the future
- Ongoing engagement of interdisciplinary & international collaborators

3:30 pm Coffee/snack break

#### 4–5 pm Roundtable Discussion/Breakout Groups: Long-term continuity of PerCS-Net

Continued

Dinner on your own (per diem will be provided on travel expense reports)

# Saturday - 17 February

8 AM Breakfast

#### 9 AM PerCS-Net Soundbites and Network Syntheses for the Future

We've been tasked with creating a short project video that highlights some of the successes of our Network of Networks over the past five years. Individuals will be asked to contribute a few remarks regarding how your involvement in PerCS-Net helped advance or accelerate your career and research? We will do the Soundbite recordings in a dedicated space. At the same time a larger group discussion will focus on Network Syntheses to help guide the vision for the future in support of network sustainability.

10:30 AM Coffee/snack break

# 11 AM Network Retreat Wrap-Up and Next Steps

12 PM Lunch

# 1pm End of meeting and break for optional local excursion – Steamboat Natchez

#### **AFTERNOON CRUISE**

Boarding Times: 2:00pm Dockside: 2:00pm - 2:30pm Cruising: 2:30pm - 4:30pm For attendees that are interested in an optional group excursion (on your own dime), we are planning to take a voyage on the Steamboat Natchez for a daytime jazz cruise with the option for lunch. Individual rates are \$60 per person with lunch and \$42 per person without lunch.
